INSTRUCTIONS

Assignment 3

Pivot table Assignments

1. From the Top Mentor Travel Agents Datasets - Prepare a Pivot Table
2. Then use the filters within to view the average prices of holidays that have a Travel Method of Plane and a Resort Name
3. Group the Number of Days and find the Average Price of that.
4. Draw Pivot Charts and show Visualizations of different Resort Names wise Prices
5. Country and Travel Method wise Price.
6. Count of Holidays based on Resort Name.

All this above analysis should be visualized in the charts. Finally, the Sheet should be saved as Holiday Pivot.
